**COS Pivot Funding Opportunities Database**

Students are encouraged to register on <http://pivot.cos.com> (free for UF faculty, students and staff). This funding opportunities database is particularly useful for graduate students because searches can be targeted to specific disciplines and types of funding (e.g. dissertation research, graduate studies, etc.). Once appropriate search parameters are identified that produce good results, the user can save the search and re-run it periodically to check for new opportunities. Or, the user can check the appropriate box when saving the search and new results from this search will be sent in an email every week. Those interested in learning more about how to use COS Pivot can access training resources at <https://pivot.desk.com/> or at Pivot's YouTube channel, <https://www.youtube.com/user/ProQuestPivot>.
