AI & BIODIVERSITY
RESEARCH THEMES AND FUTURE DIRECTIONS WORKSHOP

WHAT'S HAPPENING?

UF researchers will meet to define leading AI-driven biodiversity research themes and set the direction for next stage planning. The session will outline the next steps that include identifying aligned opportunities, drafting white papers, and preparing UF teams for future AI-focused initiatives.

WHO WILL BE THERE?

UF researchers working in AI, biodiversity science, environmental modeling, data-driven ecology, or related interdisciplinary areas should apply.

February 2, 2025

1 - 4:30 PM

In person, Main Campus
