ORCID in the Research Landscape

Save Time

Meet Requirements - Funders

Many funders require (or will soon) investigator ORCID iD (especially in the health sciences) - a few examples:

- American Heart Association
- Autism Speaks
- Children's Tumor Foundation
- Damon Runyon Cancer Research Foundation
- Howard Hughes Medical Institute
- Melanoma Research Alliance
- National Institutes of Health
- Simons Foundation
- Wellcome Trust
- + many more

Funders

- All federal funding agencies will soon require a “digital persistent identifier” for investigators:

Persistent Identifiers

(v) Consistent with applicable Federal laws and statutory authorities, within 1 year of the date of this memorandum, funding agencies shall establish policies regarding requirements for individual researchers supported by or working on any Federal research grant to be registered with a service that provides a digital persistent identifier for that individual.

(vi) Agencies shall standardize disclosure processes, definitions, and forms across funding agencies to the extent practicable. The Director of the Office of Management and Budget (OMB) shall work with OSTP, the Office of Government Ethics, and other agencies to coordinate the standardization of policies and forms related to disclosure of conflicts of interest and commitment. Where appropriate and consistent with applicable Federal laws and regulation, agencies should standardize forms for initial disclosures as well as annual updates, integrating digital persistent identifiers wherever appropriate and practicable, and should provide clear instructions to accompany these forms and to minimize any associated administrative burden.
