

### Reporting Status

In order to simplify reporting across all UFIRST modules (Proposals, Agreements, Awards, Subawards, CAS Exemptions) and states (Draft, Pending Sponsor Review, Active, etc), UF|Research has grouped every state into a Reporting Status field in order to assist the user in returning all records that they may be interested in. Some reports allow these states to be selected in order to limit report results to a specified set.

If that reporting status is selected, the following states per UFIRST module will be returned, if applicable considering all other report parameters selected.
