

PI LARGE PROPOSAL READINESS ASSESSMENT

PI name/Dept: _____

1. FOA (name, ID #, agency) you are interested in applying to.
2. What issue are you trying to solve?
3. How do you propose to solve the issue?
4. Why is your solution better than currently existing one?
5. Who will it impact? How? *Or conversely, will science, broadly speaking across the United States, be adversely impacted if your proposal is not funded? If so, explain why your proposal is transformative and disruptive.*
6. What are the sponsor's priorities and goals? In what ways is their complete & very clear alignment between your proposed project and these priorities, goals.
7. Have you received &/or completed a recent planning grant, seed funding program, etc. that has produced compelling preliminary data to inform a transformative full proposal?
8. Why UF?
